EDUCATION

Davao del Norte State College, Panabo City, Philippines

Bachelor of Science in Information Technology

- **TOPCIT Level II Passer** — Institute of Information & Communications Technology Planning and Evaluation, Daejeon, Korea.
- **2nd Best Innovation Award** — Department of Science and Technology Region XI, Davao City; recognized for developing a system that **significantly improved operational efficiency**.

EXPERIENCE

Chellan Highway Safety Services Ltd, United Kingdom (Remote)

Software Developer

- Architected a **role-based incident and CCTV fault management platform** for UK highway schemes supporting **5 distinct user roles** — Admin, Staff, Client, Live Operator, and CCTV Fault Operator — each with tailored dashboards and granular access controls.
- Delivered **real-time live incident feeds**, threaded CCTV fault chat, multi-form report submission, paginated and searchable report history, and **analytics dashboards** with data visualisation charts.
- Implemented **PDF export**, footage upload management, **OTP-based user onboarding**, and automated scheduled checks via **Firebase Cloud Functions**.
- Stack: **React, Firebase Firestore, Firebase Realtime Database, Firebase Cloud Functions**.

FB Linking, Natick, MA, USA (Remote)

Web Designer / Web Developer

- Designed and developed **responsive, conversion-focused websites** for contractor clients across U.S. local markets within a full-service digital marketing agency.
- Delivered **SEO-optimised web presences** integrating Google Local Services Ads, local SEO, and paid advertising — driving **measurable lead-generation outcomes** for clients.

DCB Digital, Queensland, Australia (Remote)

Web Developer

- Built and optimised client websites for an Australian digital agency, enhancing cross-device functionality and **boosting user interaction by 80%**.
- Delivered **pixel-perfect implementations** from Figma designs, maintaining brand consistency and performance benchmarks across all projects.

Sixeleven BPO, Maa, Davao City

Web Developer

- Designed and implemented **10+ responsive websites** and internal systems, **improving user engagement by 40%**.

Department of Science and Technology (DOST), Tagum City, Philippines

Web Developer

- Co-developed the **Customer Satisfaction Feedback System (CSFS)**, **reducing survey processing time by 70%** and improving data accuracy across regional offices.

Merryl's Consumer Goods Trading, Panabo City, Davao del Norte

IT Support / Web Developer

- Developed and maintained the company website, **increasing online traffic by 35%**.
- Configured and troubleshooted **50+ IT devices** ensuring seamless day-to-day operations.
